# Legend for Roster and Item-Level Report

# Mathematics and Reading

Item Number: This is the number of the question on the test.

**Standard:** This shows the standard each question correlates with. Items not correlated to Montana Standards are left blank.

**Total Possible Points:** This number indicates the total possible points awarded for the item (4 points).

**Summary of Scores:** Averages are listed for various groups of students (e.g. school and system).

For all items, the average of the number of points awarded to all students in that group is shown.

**Name:** Each student's name is listed, followed by response information for each item on the test.

For multiple choice questions, a plus sign (+) indicates that the student selected the correct response. If the student answered incorrectly, the letter of their response is indicated. A space indicates that the student made no selection.

For all items, a number (0, 1, 2, 3, or 4) indicates how many points the student earned for that item. **B** in Zeau, that the student left the question blank.

Score: This column st. the scaled score that corresponds to the total points earned on items that corresponds to the total points.

**Perform.** • **Level:** This mr \_nows the performance level into which the c' + s s \_ s fall.

dv. .ced (P. St. .dents at this level demonstrate a comprehensive and inth understanting of rigorous subject matter and provide sophisticated strong to complex problems.

**Proficient (PL2)** Students at this level demonstrate a solid understanding of challenging subject matter and solve a wide variety of problems.

**Nearing Proficiency (PL3)** Students at this level demonstrate a partial understanding of subject matter and solve some simple problems.

**Novice** (**PL4**) Students at this level demonstrate a minimal understanding of subject matter and do not solve simple problems.
